secondary pipe

(At the same time, Strong Kangen Water will be released from the flexible pipe.)

Cleaning Power

Excellent chemical-free cleanser.

- Clean produce, meat, cookware, cutlery, toothbrush, hands, and skin.
- Remove stains
- Eliminate odors

What is Strong Acidic Water?

Strong Acidic Water is a type of electrolyzed water containing hypochlorous acid. It can only be made when Enagic electrolysis enhancer is added to the electrolysis reaction. In general, the pH is below 2.7 and the ORP is more than 1,100 mV. It is not a strong acidic chemical substance.

Environmentally friendly water

Strong Kangen Water pH11.0 or higher ⚠️*Not suitable for drinking!

button

from the

flexible pipe

(At the same time, Strong Acidic Water will be released from the secondary pipe.)

Cleaning Power

Can dissolve and clean materials.

Absorption Power

Softens materials quickly.

Dissolving Power

An effective solvent that can draw out substances.

What is Strong Kangen Water?

Strong Kangen Water is a type of electrolyzed water with an electron potential containing sodium hydroxide. In general, the pH is over 11.0 and the ORP is 700 mV or less. It is not a strong alkaline substance.

Strong Kangen Water is an effective, chemical-free cleanser and degreaser for your daily life.

- To clean cutting boards, knives, and dishes
- Stain removal (clothing, floors, surfaces, bathroom)
- For laundry (reduces need for detergent)
- Improve flavor and texture of raw vegetables
- Clean produce and meat

※ Pro Tip: Clean with Strong Acidic Water AFTER first cleaning with Strong Kangen Water.

with 5 types of water to enhance your bo

Healthy water

Kangen Water® pH 8.5 - 9.5
Suitable for drinking

(At the same time, Acid Water will be released from the secondary pipe.)

Absorption Power

Softens materials quickly.

Dissolving Power

An effective solvent that can draw out substances.

Thermal Conduction

Shortens wait time for water to boil.

Kangen Water® improves the taste of your water and food.

● With coffee or tea

Enhances taste and aroma. Use less coffee and tea while extracting more flavor, color, taste, and richness.

● With other acidic foods

Balance the acidic effect of foods like meat and dairy with the alkaline effects of Kangen Water®.

● When making soups and stews

Kangen Water® extracts and amplifies the flavor of your ingredients for optimum taste. You'll need less seasoning, which is ideal for low-sodium diets.

● Use for washing produce and vegetables

Use Kangen Water® to make strong-tasting raw onions and other vegetables and fruits milder.

● When Cooking Rice

Wash and cook delicious, fluffy rice using Kangen Water®.

※What Is ORP (Oxidation Reduction Potential)?

ORP (Oxidation Reduction Potential) is a value that measures the proportion of oxidizing ions (such as chlorine ions) and reduction ions (such as calcium ions) in a solution. For a negative value, the solution is an electron donor and can be easily oxidized. For a positive value, the solution is an oxidizing solution and can be easily reduced. This value is shown in mV (millivolt) and is used as a reference to display the degree of chemical reaction.

dy, life, and environment.

Water for beauty

Acidic Water pH 5.0 - 6.0

⚠️ *Not suitable for drinking!

button

from the

flexible pipe

(At the same time, Kangen Water® will be released from the secondary pipe.)

Astringency

It has the power to tighten substances.

Cleaning Power

It has the power to purify substances.

Acidic water is especially effective in toning the skin.

It helps refresh the skin after a hot bath or shower and works to close the pores during facial cleansing and care.

For boiling pasta and making batters for frying.

Noodles and pasta will take on a brilliant sheen and improved texture when boiling in acidic water. Acidic water will also enhance the batter and crispy texture of fried foods.

As a cleaner.

Acidic water is effective in removing stubborn stains from dishes, cups, glasses and even bathroom tiles.

Water of security

Clean Water pH7.0 Suitable for drinking

button

from the

flexible pipe

(At the same time, the secondary pipe also releases purified water, but please use the water released from the flexible pipe.)

Use clean water to take medication and make baby formula.

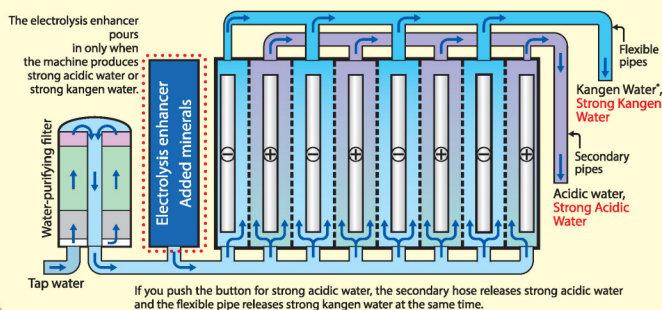

The three-layered, high-power water filter removed not only chlorine but also sediment, rust, and impurities. Clean water tastes delicious and includes essential minerals. Clean water is ideal for taking medications and for making baby formula.

Four reasons to love your new K8.

point 1 Electrolysis cell with 8 electrode plates for maximum results.

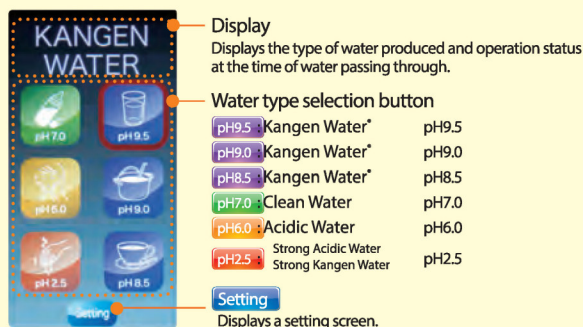

It is possible to produce a large volume of beneficial electrolyzed water, with ORP values from +1130 mV to -800 mV, by loading an electrolytic cell with eight electrode plates made of platinum-plated titanium. Kangen Water® contains an abundance of hydroxide ions (OH-) and positive ions (such as calcium) produced by electrolysis. It also contains hydrogen.

point 2 A large, easy-to-read, touch screen LCD panel.

The digital panel displays the waters (Strong Kangen Water®, Kangen Water®, Clean Water, Acidic Water, and Strong Acidic Water) being produced and other information. Easy to operate! Create new water with one touch!

※ Pressing the pH2.5 button simultaneously produces Strong Acidic Water from the spout and Strong Kangen Water from the flexible pipes.

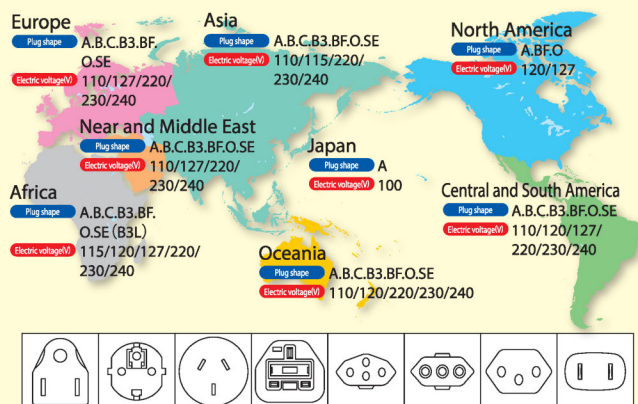

point 3 8-language display and voice prompt, for efficiency and ease of use.

For display and voice prompt, you can select from 8 languages: Japanese, English, French, German, Chinese, Italian, Spanish and Portuguese (voice prompt changes automatically upon change of language display).

point 4 Supporting multi-voltage power input, for use anywhere in the world.

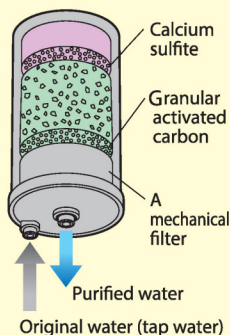

Voltages and plug shapes for power supply vary depending on country and region. The K8 comes with the power supply cord for your country of use.

The three-layered, high-powered water cleaning filter creates delicious water.

You will be able to use your water cleaning filter until the total of water the filter has treated reaches around 1,600 gallons. If your machine filters 8 gallons a day, the filter will last around 6 months. When the filter needs to be replaced, the LCD, voice prompt and alarm will sound.

The three-layered cleaning filter removes lead, chlorine, effluvium, rust and impurities while preserving beneficial minerals.

When Kangen Water® flows from the flexible pipe, acidic water simultaneously flows from the secondary pipe. When Strong Kangen Water flows from the flexible pipe, Strong Acidic Water flows from the secondary pipe.

(The flexible pipe releases acidic water only when you push the button for acidic water.)

With the one-touch convenience of the diverter, change between

NO SPECIAL INSTALLATION REQUIRED. The diverter included with unit will fit almost any type of faucet.

- 【Option Items】
- Replacement Water Filter
 - Optional type for Chlorine & Lead (pb) removal..... MW-F8
 - Mineral tank set..... (mineral tank (with cap for adding mineral powder) and 15g of calcium lactate)

■ Standard Specifications

MODEL NAME • NUMBER	Leveluk K8 A26-00			WATER FILTER	FILTERING MEDIUM		Granular Activated Charcoal & Calcium Sulfite	
WATER SOURCE CONNECTION	1-way diverter (TAP/ION) connects to end of faucet				FILTRATION ABILITY	FREE RESIDUAL CHROLINE	Total water flow : 1,600 gallons or more Removal rate/ JISS3201 Test : 80%	
POWER SUPPLY	AC 100-240V, 50/60Hz 2.0-1.0A (with ground)					INITIAL CHROLINE REMOVAL	95% or more	
POWER CONSUMPTION	Approx. 200W (under max electrolysis function)				ELEMENTS NOT REMOVABLE		Metallic ions and/or salinity present in original tap water	
SYSTEM	Continuous Ionized Electrolysis Water Generator System (with built-in flow rate sensor)				Time to exchange the filter		When the filter has treated over 1,600 gallons of water (this figure depends on the quality of water)	
PRODUCTION RATE (per minute)	Kangen Water* : 4.5 ~ 8.0(L) 1.2 ~ 2.1(gallons) Acidic Water : 1.5 ~ 3.0(L) 0.4 ~ 0.8(gallons) Strong Acidic Water : 0.6 ~ 1.5(L) 0.16 ~ 0.4(gallons)				APPLICABLE WATER QUALITY AND PRESSURE		Municipally supplied drinking water with a dynamic range in 100~450 kPa	
LEVEL SELECTIONS	● Kangen water* / 3 levels (approx. pH8.5/pH9.0/pH9.5) ● Clean water (approx. pH7.0) ● Acidic water (approx. pH6.0) ● Strong Acidic water (approx. pH2.5) /Strong Kangen water (approx. pH11.0)			ELECTROLYSIS ENHANCER		Solution additive pump system		Strong Acidic water
				ENHANCER REFILLING		Indicates by Voice prompt and LCD		
				PROTECTOR		Current Limiter/Voltage Stabilizer & thermal protection		
CELL CLEANING METHOD	Auto double cleaning system (Kangen refresh/passing water cleaning)							
ELECTRODE MATERIAL	Platinum-plated Titanium							

SAFETY PRECAUTIONS For your own safety, be sure to observe the following precautions

⚠ WARNING	⚠ CAUTION
<ul style="list-style-type: none">● Please read the Operation Manual carefully, and follow all instructions.● Pay strict attention to the following points before consuming Ionized alkaline water (KANGEN WATER*) : (1) Do not take medicine(s) with KANGEN WATER*. (2) Those with an acidity conditions should not consume KANGEN WATER*. (3) Should you experience any abnormal feelings after consuming● KANGEN WATER*, discontinue use immediately. Also, consult with your physician prior to consuming KANGEN WATER* Should you have any concerns.● Those under the care of a physician should consult with their physician before consuming KANGEN WATER*.● Those with sensitive skin or allergies should consult their physician before consuming KANGEN WATER*.● Those with allergic reactions or sensitivity to acidic water should consult their physician.	<ul style="list-style-type: none">● For those drinking KANGEN WATER* for the 1st time: It is recommend the you start drinking KANGEN WATER* at 8.5pH with 1~2 glasses/day for on week.● You can then gradually increase the pH level.● Should you experience a rash after drinking KANGEN WATER*: Those with allergies to certain foods may experience rash-like symptoms. Consult with your physician.● Use municipally-treated tap water.
